On February 18, 2022 at the Lake County Detention Center, Polson, MT. Was so overcrowded there was literally seven of us sleeping on the floor in the recreation room. That day ~~they~~ they hid all of us in holding cells, while a film crew came in to document no overcrowding.

11am-2pm.

As they covered all the holding <sup>cell</sup> windows.

We could hear the guards saying, "We don't need any witness's!"

stuck to the walls. A thick layer<sup>of</sup> dried dirt on the walls that it actually comes off with the wipe of a finger. There is lots of dried foods and liquids all over the walls. There is dried human snot/boogers on the walls, bloody dried human snot/boogers on the walls. There is a thick layer of grime, dried on the ceiling with a yellow tent in some places. A thick pungent odor in the single cells of maybe old dried up human urien. There is a thick layer of Black-Mold on the walls and coming out of the walls. No doubt there is black-mold in the walls. Air-vents, there is toxic, freezing air being pumped through the air vents. No doubt with Black-Mold and I am a serious asthmatic and my lips are getting more and more purple every week! The vent grates are absolutely loaded with grime, dirt, dust, mud, bacteria and black-mold. The beds are absolutely covered in dirt, grime, dried food, hair and human finger nail.

We are not being properly checked out by medical professionals. No real M.D's, EMT's, no Nurse's. All of our prescriptions come from a PA-Physition's Assistant, that comes in once a week. We're never looked at, checked out, our vitals are never taken. We're just prescribed drugs. Now these drugs are given to us daily by detention center gaurds, non-medical professionals. No EMT's, No nurse's, nothing and my medications have been mis-handled on more then one occation. We are not given our weekly recreation, vitamin-D time because this detention center is so constantly packed, there's literally people sleeping on the floors. Including the recreation room.

Thank you

I recieved lunch and one of the worst dinners of my entire life! Out dated corn chips, old bone dry carrots and a sandwich that had two slices of wet bread! 2-16-2022, every single inmate was given their daily morning prescribed medications that help save their lives. I was not!

9-21-2021, I sat in the Polson/Lake County Detention Center for seven-hours with a punctured lung and three broken ribs before being transported to the Polson, MT Emergency Room.
